LEADING THE PATH TO YOUR COMFORT AND SAFETY WITH STYLE

A trusted household consumer durables brand dedicated to providing the best-in-class experience to its consumers far and wide, USHA's new range of Water coolers and dispensers is exclusively designed to suit your everyday water needs without compromising on your safety.

Choose from our new range of Water coolers and Dispensers, now touchless to provide the safety of use and contactless dispensing at all times. The advanced technology features like digital temperature control and programmed water dispensing functions deem our models perfect for your modern office spaces without compromising on performance and style.

USHA WATER COOLERS

POWERED TO PERFORM.
MADE TOUGH TO OUTPERFORM.

Usha's range of water coolers is designed to deliver like no other. While their efficient design and rugged body gives them a long life, their low power consumption and fast cooling gives you a best-in-class experience, every time.

OUR TECHNOLOGY

SENSOR BASED DISPENSING

Sensor based touchless technology for safety of use and contactless dispensing at all times.

CONDENSER COIL TECHNOLOGY

Usha water coolers come with anti-corrosive grooved copper tubing and aluminium blue fin technology that provide faster cooling, making it an energy efficient solution.

ECO-FRIENDLY REFRIGERANT

Environment friendly non-CFC R-134a refrigerant provides safety and better performance.

HFC FOAMING TECHNOLOGY

Climate-friendly HFC Puf technology that eliminates the traditional refrigeration system and ensures environment safety.

TOUCHLESS DISPENSING. DESIGNED FOR SAFETY. STYLED FOR COMPLIMENTS.

4080G VCM SENSOR

Designed to ensure safe and contactless dispensing at all times, the new touchless VCM water cooler is environment friendly and consumes less power. Suited for a dash of colour to brighten up your space, the model comes with bright design aesthetics, food-grade stainless steel tank and chrome-plated brass faucets to ensure safe drinking water and a longer product life.

USHA WATER DISPENSERS

TECHNOLOGY YOU CAN TRUST

Usha water dispensers are the perfect choice for your office space, promising best-in-class cooling while consuming less power.

POWERING YOUR WATER NEEDS WITH THE BEST TECH!

SENSOR BASED DISPENSING

Sensor based touchless technology for safety of use and contactless dispensing at all times.

WATER TEMPERATURE CONTROL

Manually adjust the temperature of hot and cold water in the water dispenser and choose the desired temperature setting in real time as required.

ECO-FRIENDLY REFRIGERANT

Environment friendly non-CFC R-134a refrigerant provides safety and better performance.

AUTOMATIC WATER DISPENSING IN DIFFERENT CAPACITY

Preset dispensing settings to manually choose the desired volume of water to dispense at any point in time as required.

A TALL STANDING WATER DISPENSER ERGONOMICALLY DESIGNED TO PUT LESS PRESSURE ON YOUR BACK

I SENSE

A performance-driven tall digital dispenser, I Sense comes with bottom loaded Water bottle compartment to avoid heavy lifting of water bottles. The soft push buttons placed at a convenient height ensure maximum comfort of use, thereby preventing backache troubles.

1.3 m tall height dispensing to prevent backache problems

Programmed water dispensing in 200 mL / 300 mL / 400 mL / 500 mL capacity for measuring everyday glass of health

Digital control water dispensing hot water : up to 85°C, cold water: up to 15°C
